Fund Raising for Capital Projects The Aspirational Plan approved following village consultation is moving towards the construction phase for an extension to the Car Park and Land Drainage in particular. The erection of a solar panel array to the rear roof pitches is also being considered. The aim is to raise somewhere in the order of £135,000. We have so far received generous donations, or promises of funds, that take us to some £90,000. If you are willing and able to contribute, even a small amount, to this effort please contact Piers Marshall (treasurer) marshall.piers@gmail.com who will advise on means by which payment can be made and will invite you to complete an application for Gift Aid, since the Hall is a registered charity.
